

KITZ Specialty Valve Distributor

M.A. Stewart & Sons Ltd. is pleased to announce the appointment of AIV Canada Inc. (located in Edmonton, Alberta) as a Master Distributor for KITZ High Alloy (Chromes) and other special exotic-hard to find alloys. AIV Canada Inc. has committed to and received a significant and very broad based inventory of KITZ Specialty Valves from M.A. Stewart & Sons Ltd. This inventory, combined with M.A. Stewart's KITZ investment in excess of \$15 million, will provide the most comprehensive off the shelf valve offering, servicing all industries in Canada.

M.A. Stewart & Sons Ltd., the exclusive KITZ representative for the Canadian market, is very excited to leverage this opportunity with AIV Canada Inc. We will collectively/effectively respond to the market demand with available, on the ground and local, chrome & specialty valve inventory. This new inventory will compliment M.A. Stewart's existing KITZ inventory and serve the Canadian market and customers that require these types of KITZ products without factory lead times.

For any questions regarding this announcement, please contact Dan Hardy, President and CEO of M.A. Stewart & Sons Ltd., or Mike Musteca, Vice President of AIV Canada Inc.
