

803 Pressley Rd., Suite # 107

Charlotte, NC 28217

T.: (704) 527-0722 or toll free (866)-582-5837

F.: (704) 527-0791 or toll free (866) 810-9287

## Line Card

---

**“B” Series** Brass ball valves, Full & reduced port, CSA (Gas Approved) or not, NPT or SW ends, Locking or non-locking levers

**“C” Series** Carbon steel ball valves, SS trim, Full & reduced port, Regular or heavy duty, 1,2 or 3-piece design, ISO mounting pads, meeting NACE MR-01-75, locking levers, NPT, BW or SW ends, some to API 607-4th

**“F” Series** flanged steel ball valves, full & reduced port, carbon with SS trim or full SS, 150#, 300# or 600# , live loaded packing, locking mechanism, anti-static devices and more

**“G” Series** SS ball valves, Full & reduced port, Regular or heavy-duty, 1,2 or 3-piece design, vented balls, self relieving seats, ISO mounting pads, locking levers, NPT, BW or SW ends, some valves to API 607-4th

---

Gates, globes, checks, ball & butterfly valves, in Brass, Bronze, Cast Iron & Steel (Carolinas & Virginia)

---

High quality Forged, Carbon, SS or Special alloys gates, globes & check valves, Cryogenic valves, Bellows sealed valves, pressure classes from 150 # to 4500 #, NPT, SW, Flanged, RTJ or Butt Weld ends

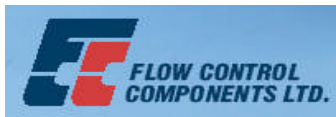

---

Precision built for enduring performance, this quality line of steel valves offers Gates, Globes & Checks in various materials such as WCB, WC6, WC9 & more. Flanged or Buttweld, pressure classes 150# to 2500#, these valves meet & exceed all of the applicable standards.

“When Quality & Value Matter...Benchmark to Beric!”

---

Knife gates, gates, globes, checks (swing type or tilting disc, Instrumentation & Sampling valves in Carbon, SS or exotic alloys.

---

Made in the USA High Performance Butterfly valves in Cast or SS steel, resilient, metal or fire safe (API 607 - 4th Edition) seated valves, with levers, gears or actuators. 

---

Pneumatic or electric actuators for 1/4 turn applications, with Anodized Aluminum, Technopolymer or SS housings, ISO mounting flanges & Namur drilled for accessories, Solenoid valves (Namur drilling), Mechanical micro switches, Proximity sensors & many other accessories

---
